1. **Educational Goals for the Course:** This course explains why it’s important for every teacher to become involved in teaching students how to read, write, and comprehend the subject matter being presented to them, with a focus on strategies for teaching science. Participants will also explore the common misperception that a lack of reading skills is the root of failure in content-area courses.

2. **Instructional Learning Objectives:**

   **Participants will:**
   - Consider the rationale for building literacy skills and what reforms in early reading are required to ensure that all students become proficient readers.
   - Explore the common misperception that a lack of reading skills is the root of failure in content-area courses.
   - Learn several teaching strategies relevant to science.

3. **Course Requirements:** This course is available only to those who have registered with and purchased the course from ASCD (www.ascd.org, then select PD Online Courses)

   **Participants will be required to:**
   - Complete all lessons.
   - Submit a reflection paper, detailing what was learned and how the knowledge will be applied.
