

Objectives:

In this scenario, you will:

- Navigate to the **Create Wiki** page
- Name and describe the wiki
- Upload an icon
- Apply a theme

Quick Start Guide: Adding a Wiki

A wiki is a website composed of one or more pages that allows people to add and edit content collectively. Your wiki starts off with one page: the homepage. You can add new pages at any time and link them together hierarchically.

You can create a wiki as a course element, in your personal learning space, and in a community area.

Navigation

1. Enter a site.
2. If you have not defined a module, click the **Add Content Module** link.
 - a. On the **Add Content Module** dialog box, enter text in the **Name** field.
 - b. Click the **Add** button.
3. In the module group box, click the **Add Site** button (+).
4. On the **New Site** dialog box, click the **Wiki** icon ().
5. Click the **Continue** button.

Steps

Information

1. On the **Create Wiki** page, enter the name of the wiki in the **Title** field.
2. Enter a description of the wiki in the **Description** field if applicable.

Appearance

1. If you want to display an **Icon** for the wiki:
 - a. Click the **Change Image** button.
 - b. On the **Upload Image** dialog box, click the **Browse** button.
 - c. Navigate to and select the image.
 - d. Click the **Upload** button.
2. To change the default theme, select the **Theme** option (e.g., Beige Fusion, Classic).
3. If you want to preview the theme, click the **Preview** link.
4. Click the **Continue** button.

After creating a wiki site, you need to define who can contribute to, view, and manage the site. For more information, see the *Managing Sharing for Wikis* topic.
