

Internet Access Policy

- NNU provides computers to those employees per the Computer Policy.
- In general, those wanting home internet access must personally pay for the cost of that service.
- Exceptions:
 - IS staff as approved by the IS Director (and School Dean) and paid for by IS;
 - FT or Adjunct Faculty teaching online courses as approved by his/her supervisor and paid by the department for the duration of the course.

Any other exceptions must be approved by the employee's supervisor.

- Broadband vs. standard "dial-up" service selection will be left to the discretion of the relevant sector Vice President, being mindful of good stewardship in the use of university resources.
